

Domestic Violence Numbers for the Past Five State Fiscal Years

State Fiscal Year (SFY) = July 1 of first year listed through June 30 of second year listed

You will notice a significant change in the numbers for SFYs 2020-2021 and 2021-2022. More than half of the DV programs are continuing to shelter and provide services within hotels/motels due to the Coronavirus pandemic. Only a few have relocated back to their shelters and operating at 100% capacity. The service contacts were conducted by the Hybrid Model (face to face/virtually).

Reporting Classifications	SFY 2017-2018	SFY 2018-2019	SFY 2019-2020	SFY 2020-2021	SFY 2021-2022
Emergency shelters *	17	17	18	18	18

Individuals receiving emergency shelter assistance ***	4,513	4,067	3,652	2,017	3,004
Service contact with women/men/children receiving individual and/or group counseling services ****	67,976	43,190	14,253	12,332	7,408

NOTES:

- * 13 Programs with a total of 18 Emergency Shelters
- ** Domestic violence programs provide services to victims of domestic violence that can, but doesn't have to, include emergency shelter. Currently, all domestic violence programs funded through SCDSS include emergency shelter. Some programs have more than one shelter site. Other services include, but are not limited to, counseling, legal aid, transportation, and employment assistance.
- *** Reflects the number of unduplicated adults and children served by providers. (Unduplicated=unique individuals)
- **** Residential and Non-Residential Counseling services, including individual and group counseling sessions. The significant decrease in the number between SFY 17-18 and SFY 18-19 is due to a change in the federal requirements: federal reporting is no longer asking for service contacts but want to know the number of individuals instead. This number is calculated from data submitted by providers per Federal Grant requirements.
