

South Carolina Department of Social Services
Child Welfare Quality Assurance Review: Colleton County
Summary Report

This summary report describes the results of the South Carolina Department of Social Services (DSS) Colleton County Quality Assurance Review, conducted February 3-7, 2014.

DSS Child Welfare Quality Assurance Reviews are conducted using the *Onsite Review Instrument* (OSRI) finalized by the federal Administration for Children & Families (ACF) in July 2008. This instrument is used to review foster care and family preservation services cases. Twenty cases were reviewed including ten foster care and ten family preservation cases.

The OSRI is divided into three sections: safety, permanency, and child and family well-being. There are two safety outcomes, two permanency outcomes, and three well-being outcomes. Reviewers collect information on a number of *items* related to each of the outcomes. The ratings for each *item* are combined to determine the rating for the outcome. Outcomes are rated as being substantially achieved, partially achieved, not achieved, or not applicable. The *items* are rated as *strength*, *area needing improvement*, or not applicable. Ratings for each of the outcomes are displayed in Table 1.

Table 1. Child Welfare QA Onsite Reviews – Ratings by Outcome

Outcome	Substantially Achieved	Partially Achieved	Not Achieved
Safety 1 <i>Children Are, First and Foremost, Protected from Abuse and Neglect</i>	59% (7)	33% (4)	8% (1)
Safety 2 <i>Children are Safely Maintained in their Homes whenever Possible and Appropriate</i>	40% (8)	20% (4)	40% (8)
Permanency 1 <i>Children have Permanency and Stability in their Living Situations</i>	20% (2)	60% (6)	20% (2)
Permanency 2 <i>The Continuity of Family Relationships and Connections is Preserved for Children</i>	30% (3)	50% (5)	20% (2)
Well-Being 1 <i>Families have Enhanced Capacity to Provide for their Children's Needs</i>	25% (5)	50% (10)	25% (5)
Well-Being 2 <i>Children receive Appropriate Services to meet their Educational Needs</i>	46% (6)	15% (2)	39% (5)
Well-Being 3 <i>Children receive Adequate Services to meet their Physical and Mental Health Needs</i>	36% (5)	36% (5)	28% (4)

Results for outcomes and *items* are reported by the number of cases and the percentage of total cases given each rating. In addition, the percentage of *strengths* is calculated for each *item*. This percentage is calculated by adding the number of *strengths* and the number of *areas needing improvement*. The number of *strengths* is divided into this total to determine the *percentage of strengths*.

SECTION II: FOSTER CARE LICENSE REVIEW

As part of the Quality Assurance Review Process in Colleton County, ten Foster Home Licenses were randomly selected from the list of all licenses issued for the county during the period under review. These licenses were reviewed using the *South Carolina Department of Social Services Quality Assurance Foster License Review Instrument*. This instrument consists of three sections. Section One focuses on the issuance of the Initial/Standard License. Section Two focuses on the standard license renewal process. Section Three focuses on agency oversight, data entry, and qualitative issues. Each section of the instrument includes the appropriate agency, state, and federal requirements.

Section One review criteria include the following *items*:

- applications
- autobiography information
- financial information
- child factor's checklists
- initial home assessment studies
- references
- information related to firearms and ammunition in the house
- pet vaccination information
- background checks
- convictions
- required trainings
- medical reports
- fire inspections/re-inspections
- discipline agreements
- disaster preparedness plans
- alternative caregiver forms
- a review of any conflicts noted between file documents and CAPPS

Section Two review criteria include the following *items*:

- a review of the initial background checks
- convictions
- training hours
- medical reports
- updated home studies
- discipline agreements
- fire inspections and drills
- quarterly home visits
- disaster preparedness plans
- annual firearms location update
- information concerning the alternative caregivers
- safety checks of alternative caregivers
- a review of child protective service allegations
- pet vaccination information
- a review of any regulatory infractions
- a review of any conflicts noted between file documents and CAPPS

All of the requirements evaluated in Sections One and Two of this instrument must be met for the foster home license to be valid. If any *items* are rated as not met, the foster home license is considered invalid. Federal funds cannot be used for board payments for any foster children in the home during the time the license was invalid. Areas noted as having occurred as required on the assessment are rated as *strengths*. Those *items* that were not met are rated as an *area needing improvement (ANI)*. If the issue is not applicable, it is rated N/A.

Additionally, the percentage of *strengths* is also calculated for each *item*. This percentage is calculated by adding the number of *strengths* and the number of *ANIs*. The number of *strengths* is divided into this total to determine the percentage of *strengths*. Results of the review are noted in Table 9.

Section One. Four foster care issuances for initial/standard license were reviewed. The cases reviewed were all rated as *strength* because all of the licensing requirements were met prior to authorization of the license renewal.

Section Two. Five of the six cases reviewed were rated as *ANI* because all of the licensing requirements were not met prior to authorization of the license renewal. Issues identified in Section Two that led to the rating of *ANI* for the five cases include:

Table 9. Summary of Ratings for Sections One and Two

Rating	Section One: Initial	Section Two: Renewal
<i>Strength</i>	4 (100%)	1 (16.7%)
<i>Area needing improvement</i>	0 (0%)	5 (83.3%)
Total	4 (100%)	6 (100%)
<i>% Strengths</i>	4 (100%)	1 (16.7%)

Medical Record:

- Medical statements for applicable individuals were not located in the case file.

Background Checks:

- Central registry, SLED, sex offender registry checks, and/or FBI checks were not completed or completed in an untimely manner.

Training:

- The required 28 hours of training were not completed or could not be verified.

Pet Vaccination Records:

- Pet vaccinations were not up-to-date or not on file.

Section Three. Deficiencies were noted for six of the ten files reviewed. Deficiencies noted in Section Three may not invalidate the license but still require attention and correction by county management. Issues identified by the reviewers include:

Alternative Caregivers:

- An alternative caregiver/babysitter was not identified.

Fire Drills:

- Records did not include verification that fire drills were conducted regularly.
- Records did not include verification that fire drills were conducted within 24 hours of a child’s placement.

Safety:

- All Discipline Agreements were not located in the case file or were not signed.
- Quarterly home visits were untimely or not completed at all.

SECTION III: CHILD PROTECTIVE SERVICE SCREEN-OUT REVIEW

A review of ten screened-out allegations was completed to determine whether the reports were screened out according to agency policy. The reports were randomly selected from the list of reports screened out by the county during the period under review. The *South Carolina Department of Social Services Quality Assurance Review Screen-Out Report Instrument* was used to conduct the review. This instrument includes a description of the allegation and six questions regarding the screened-out decisions and processes (see Table 10).

Table 10. Summary of Item Ratings for Screen-Out Review

	Yes	No	NA	Total
1. Illegal substance use alleged AND reason for safety threatened with harm	1	9	0	10
2. Use of CAPSS and/or other systems for prior involvement	10	0	0	10
3. Maltreatment tab in CAPSS completed	1	9	0	10
4. Contact with necessary collaterals prior to screen-out decision	3	4	3	10
5. Another intake referral on same perpetrator and/or child within 12 months	3	7	0	10
6. Intake Supervisor ensured consultation with another supervisory-level authority	0	2	8	10

*Note: A single case may have more than one issue identified.

The percentage of *strengths* is also calculated for the cases reviewed. This percentage is calculated by adding the number of *strengths* and the number of *ANIs*. The number of *strengths* is divided into this total to determine the percentage of *strengths*. Findings of these reviews are noted in Table 11.

Table 11. Summary of Ratings for Screen-Outs Review

Rating	Was this case screened-out according to agency policy?
<i>Strength</i>	1 (10%)
<i>Area needing improvement</i>	9 (90%)
Total	10 (100%)
<i>% Strengths</i>	1 (10%)

Nine of ten cases were determined to be screened-out in violation of agency policy.

Issues identified that led to the rating of *ANI* include:

- The Maltreatment tab in CAPSS was not thoroughly completed and no explanation was provided.
- There was no documentation to indicate that a supervisor consulted with another supervisory-level individual, when appropriate, prior to making the decision to screen out.
- The agency indicated that the allegation met the legal definition of maltreatment, but failed to accept the report.

SECTION IV: CHILD PROTECTIVE SERVICES UNFOUNDED REPORTS REVIEW

Five unfounded reports were reviewed to determine whether the reports were unfounded in accordance with agency policy. The five unfounded reports were randomly selected from the list of all reports unfounded by the county during the period under review. The review was conducted using the *South Carolina Department of Social Services Quality Assurance Review Unfounded Report Instrument*. This instrument includes a description of the allegation and items regarding three primary areas (see Table 12):

- Timeliness of initiating investigations of reports of child maltreatment,
- Repeat maltreatment, and
- Risk assessment and safety management.

Table 12. Summary of Item Ratings for Unfounded Review

	Yes	No	N/A	Total
1A. Investigation not initiated in accordance with timeframes and requirements	0	5	0	5
1B. Face-to-face contact not made in accordance with timeframes and requirements	4	1	0	5
1C. Delays in investigation initiation or face-to-face contact beyond control of agency	0	4	1	5
2A. At least one substantiated or indicated maltreatment report	0	5	0	5
2B. One substantiated or indicated maltreatment report within six months before or after	0	0	5	5
2C. Repeat maltreatment involving the same or similar circumstances	0	0	5	5
3A. Initial assessment of risk to the children and family in the home	4	1	0	5
3B. Initial assessment in accordance with established timeframe	1	4	0	5
3C. Ongoing assessment(s) of risk to the children and family in the home	2	3	0	5
3D. Safety concerns that were not adequately or appropriately addressed by the agency	3	0	2	5

*Note: A single case may have more than one issue identified.

The percentage of *strengths* is calculated for each decision to unfound. This percentage is calculated by adding the number of *strengths* and the number of *ANIs*. The number of *strengths* is divided into this total to determine the percentage of *strengths*. Findings of these reviews are noted in Table 13.

Table 13. Summary of Ratings for Unfounded Review

Rating	Were cases unfounded according to agency policy?
<i>Strength</i>	0 (0%)
<i>Area needing improvement</i>	5 (100%)
Total	5 (100%)
<i>% Strengths</i>	0 (0%)

All five cases were determined to be unfounded in violation of agency policy. Issues identified that led to the rating of *ANI* include:

- The agency failed to adequately assess all related individuals, make appropriate referrals, or assessments were poor in quality. (5 cases)
 - Children involved in sexual abuse allegations were not assessed through the proper agency and did not receive a forensic interview.
 - In a case involving drug abuse, there was no documentation to support an inquiry regarding drug history, submission to a drug screen, or review of medical records.
 - A background check on a father's paramour was not conducted.
 - Referrals for counseling were made for a child, but there was no documentation that the agency followed up.

- Initial face-to-face contact was not made with children within the appropriate time frame. (4 cases)
 - In one case, the agency never made face-to-face contact with two of the victim children.
- Safety concerns were not fully addressed. (4 cases)
 - Children continued to be left unsupervised with a suspected perpetrator following allegations of sexual abuse.
 - The agency failed to contact a mother's doctor to assess whether she was abusing her prescription medications.
 - A child had possible exposure to Methamphetamine and described physical symptoms including his eyes burning after exposure to a substance being cooked by his father. The agency failed to obtain the medical records and failed to schedule a Forensic Interview.
- Pertinent medical records were not obtained by the agency. (3 cases)
- Home assessments of risk and safety were not conducted in a timely manner. (1 case)
