Introduction

Pathways to Success

John H. Chafee Foster Care Program for Successful Transition to Adulthood

The journey to adulthood is a critical transition for youth in foster care. It is a time when young adults learn to take on the primary responsibility for their futures and the accompanying concerns of employment, education, healthcare, housing and home management, and maintaining significant relationships with those who will continue to support and encourage them beyond the transition to independence.

The **Chafee Foster Care Program for Successful Transition to Adulthood** was established with the passage of the John H. Chafee Foster Care Independence Act of 1999 (PL 106-169) and amended by the Family First Prevention Services Act of 2018 (PL 115-123). Chafee funds are intended to provide youth with opportunities to learn needed skills and increase the likelihood of successful transition from foster care to independence. The **Educational and Training Voucher (ETV)** Program was established by the Promoting Safe and Stable Families Act of 2001 (PL 107-133). This program provides resources for youth who are transitioning from foster care to meet their education and training needs.

Youth can be best prepared by learning about both the challenges and the opportunities in the following areas:

- A supportive relationship with an adult and/or interpersonal connections to help them achieve their personal goals
- Education and training that enable youth to obtain and retain steady employment
- Gainful employment with future possibility for career growth
- Safe, stable, and affordable housing and access to transportation for work and school
- Coverage within a managed care system for both physical and mental health

Approvals are based on Chafee Program funds availability and may not cover entire expense.

Purpose Statement

The South Carolina Department of Social Services and the John H. Chafee Foster Care Program for Successful Transition to Adulthood believes that youth should have the opportunities to reach and maintain successful self-sufficiency. For this purpose, the Chafee Program provides services and funding needed to enhance opportunities to learn independent living skills necessary to become self-reliant.

7 Purposes of John H. Chafee Foster Care Program for Successful Transition to Adulthood

- To support all youth who have experienced foster care at age 14 or older in their transition to adulthood through transitional services such as assistance in obtaining a high school diploma and post-secondary education, career exploration, vocational training, job placement and retention, training and opportunities to practice daily living skills (such as financial literacy training and driving instruction), substance abuse prevention, and preventive health activities (including smoking avoidance, nutrition education, and pregnancy prevention);
- To help children who have experienced foster care at age 14 or older achieve meaningful, permanent connections with a caring adult;
- To help children who have experienced foster care at age 14 or older engage in age or developmentally appropriate activities, positive youth development, and experiential learning that reflects what their peers in intact families experience;

- To provide financial, housing, counseling, employment, education, and other appropriate support and services to former foster care recipients between 18 and 21 years of age to complement their own efforts to achieve self-sufficiency and to assure that program participants recognize and accept their personal responsibility for preparing for and then making the transition from adolescence to adulthood;
- To make available vouchers for education and training, including postsecondary training and education, to youths who have had experience in foster care;
- To provide the services referred above to children who, after attaining 16 years of age, have left foster care for kinship guardianship or adoption; and
- To ensure children who are likely to remain in foster care until 18 years of age have regular, on-going opportunities to engage in age or developmentally-appropriate activities (as those terms are defined in section 475(11) of the Act.

Engaging Youth in preparing for The Future

Establishing Youth-Centered Successful Transition to Adulthood Goals

When a youth in foster care reaches the age of 14 or a youth enters care at age 14 or older, the case manager will **assist the youth in completing a Life Skills Assessment**. Sometimes, the case manager will work with the care provider to assist the youth with this assessment.

The Life Skills Assessment, such as Casey Life skills <http://www.casey.org/casey-life-skills-resources/>, Washington Life Skills Inventory Assessment Tool <http://transitionresponse.com/wp-content/uploads/2011/09/Life-Skills-Assessment-Div.-Of-Children.pdf>, and Daniel Memorial Assessment <http://www.danielkids.org/>, are used to identify a youth's basic skills, emotional and social capabilities, strengths, and needs. The information gathered with this tool is used to **create an individualized case plan** based on the specific needs of the youth. Case planning should be a collaborative process involving the youth, the case manager, the care provider, appropriate family members, and other adults identified as being significant to the youth and willing to support and encourage the youth as he or she prepares to transition to independence.

Case **plans should contain specific transition goals** to include employment, education, housing, life skills, physical and emotional health, and spiritual development. The plan **should include steps that must be taken to achieve these goals**. A Life Skills Assessment is re-administered on a yearly basis. Case plans should be revised as the youth develops and his or her needs change.

National Youth Transition Database NYTD

The National Youth in Transition Database (NYTD) project is a national research study that tracks the John H. Chafee Foster Care Program for Successful Transition to Adulthood services and outcome measures of youth transitioning from foster care in each state. The survey measures financial self-sufficiency, experience with homelessness, educational attainment, positive connections with adults, high-risk behaviour, and access to health insurance.

The **National Youth in Transition Database** is a national database that (1) surveys youth about their thoughts and experiences of foster care services and (2) tracks the Chafee services that youth receive. The South Carolina Department of Social Services and The Center for Child and Family Studies at the University of South Carolina are partners in this study, which is required by the US government.

This database is used to document, track and evaluate services provided for youth in foster care. A NYTD service requires action from the provider or Case Manager - specifically for preparing a youth for independence, education, housing, life skills, employment, etc. All transition services funded by Chafee and ETV must be reported as NYTD services in the *child welfare management and adult protective services information system* (CAPSS). It is a federal requirement to record and update NYTD services in CAPSS under the “NYTD” tab (at least monthly).

Case managers and care providers communicate at least once per month (Utilize **Monthly NYTD Tracking Form 30254** & keep copies in youth’s case file). Provide the care provider with access to the NYTD Services Booklet (Booklet 30255) to understand 14 NYTD categories. Missing or inaccurate information will result in a classification of non-compliant when reporting information to the federal government. Non-compliance could result in financial penalties placed on Chafee funds.

Transition Planning

The Fostering Connections and Increasing Adoptions Act of 2008 made it a requirement that, beginning at age 17, a youth in foster care must begin to develop and implement a transition plan. The South Carolina Department of Social Services uses the Transition Plan Meeting form 30206 (formerly known as P.A.T.T.Y) for this purpose. **This plan must be formalized within the 90 days prior to the youth's 17th birthday. This form is used again at the formal transition planning meeting that must take place 90 days prior to a youth turning 18 and/or leaving care.** The Transition Plan Meeting form is used to identify areas in which services and skills are needed in order to make a successful transition to independence. Assisting the youth to identify and engage individuals in his or her support system is essential. Service providers, foster parents, family members, and any other individuals with whom the youth has a positive connection should be invited to participate in the transition planning meeting to develop the transition plan.

Progress is evaluated monthly and the transition plan is updated as needed until the youth leaves care and for a minimum of 6 months after the youth leaves care and continuing as long as the youth is receiving Chafee funding. Progress should be documented in after care line dictation.

The Transition Plan Meeting form is also used when youth ages 18 – 21 who have left foster care request aftercare services.

Why is the Transition Plan Important?

It is important for youth to understand the process that needs to take place as they prepare for adulthood. They should be encouraged to use their voices by actively participating in the development of this plan. Youth should be assisted in identifying their future goals and the steps necessary to achieve those goals. Youth in foster care have the right to invite others to their transition planning meeting who are significant to them and will continue to support them as they prepare for independence and beyond.

Youth must also assume their responsibility in making the transition successful. This relies heavily on the youth's ability to make appropriate decisions and follow through on the objectives identified in the transition plan.

Annual Credit Reporting for Youth In Care

In order to be and remain in compliance with Public Law 113-183, "child welfare agencies must ensure that youth in foster care receive a copy of any consumer report, commonly called "credit report", annually until discharged from care, and that they be assisted in interpreting the credit report and resolving any inaccuracies." These reports will be obtained from three nationwide credit agencies (Transunion, Experian, and Equifax) each year the youth remain in foster care until age 18. Young Adults 18 and older with a previous Foster Care Placement may request the agency to conduct a credit review on their behalf using DSS Form 1540.

The Identity Theft Prevention Coordinator (ITPC), a member of the John H. Chafee Foster Care Program for Successful Transition to Adulthood Unit, will submit a credit report history request for each youth age 14 and older who are in foster care annually and document the request for each youth's credit report history in CAPSS. If no credit report history is found, then youth and case manager will receive notification.

- Youth in the custody of the Department of Social Services with Successful Transition to Adulthood as part of the case plan
- Youth who were in the custody of DSS at 18 years of age
- Youth who leave care to adoption/kinship/ guardianship at or after age 16 are eligible for up to \$5,000.00 per year in ETV funding for post-secondary schooling (college) for up to 5 years, whether consecutive or not or until their 26th birthday, whichever comes first. Youth who leave for adoption/kinship/ guardianship must have been in foster care for a minimum of 6 months.
- Youth who leave care to reunification at or after age 14 are eligible for up to \$5,000.00 per year in ETV funding for post-secondary schooling (college) for up to 5 years, whether consecutive or not or until their 26th birthday, whichever comes first. Youth who leave for reunification must have been in foster care for a minimum of 6 months.

Youth are eligible for ETV funds as long as they are enrolled in college, making satisfactory progress, and have not reached the age of 26, even if they are not in care. The following (3) factors may be considered in determining eligibility:

- Acceptance to a technical school, college, university, or other program that meets the ETV criteria
- Students who demonstrate academic achievement or show a marked improvement in educational functioning

- The long term goal and plan for meeting that goal

ETV Awards

Youth may be eligible to receive up to a maximum of \$5,000 per year up to the 26th birthday or for 5 years, whether consecutive or not, as long as funds are available through the Education and Training Voucher Program. Youth who complete the Free Application for Federal Student Aid (FAFSA) form, either on line or at their school, will have access to all state and federal based scholarships and grants for which they may be eligible. The awarding of ETV funds depends on the cost of the school and the amount of grants and scholarships the youth receives. The \$5,000 award is to be applied to all costs associated with the cost of attendance to a post-secondary school.

Youth should be encouraged to complete FAFSA forms as early as possible and to obtain copies of the financial aid print out and the school's billing statement and maximum financial aid award.

Youth should also be reminded to answer "yes" to the FAFSA question that at any time since age 13 they were a dependent or ward of the court. This ensures being granted an independent status for student aid.

Youth should research other scholarships and awards online, including the web site of the South Carolina Commission on Higher Education (www.che.sc.gov) and the scholarship funding information that is included on DSS Form 30198. If a youth does not use all of their ETV funds during the Fall/Spring semesters, the remaining amount can be used for summer school.

Approvals are based on Chafee Program funds availability and may not cover entire expense.

How to Apply for ETV Funding

Funding requests for John H. Chafee Foster Care Program for Successful Transition to Adulthood are submitted to the Regional Chafee Program Coordinator on DSS Form 30198. Case managers should ensure that the youth signs the ETV funding request. Without the youth's signature, the request cannot be approved. Be sure to attach copies of the required documentation necessary to process the funding request (See Appendix A).

ETV requests for the fall semester should be submitted by June 30th of each year. Meeting this deadline will ensure that the funds will be in the county offices in time for the fall term. All college funds are approved for the entire academic year of the fall/spring semesters. If a youth plans to attend summer school, funding requests should be made at least two months before the beginning of the summer session.

It is very important that all the necessary information is submitted with the ETV funding request. The Regional Chafee Program Coordinator will contact the appropriate person when more information is needed; however, this delays the approval process.

Note: ETV funding requests must be submitted each academic year to ensure that the youth continues to receive educational assistance.

Documentation to assist County Business Offices in issuing checks to REIMBURSE someone with John H. Chafee Foster Care Program for Successful Transition to Adulthood Funds:

Issuing checks requires **clear supporting documentation**. Please help ease the process by providing three important pieces along with any other requirements by the county Business Office.

1. Check Voucher Request
2. Approval letter corresponding to the service provided to the youth
3. Receipts, letter or account printout from vendor showing proof of payment received. *On the receipt, letter or printout, **highlight important information** such as the youth's name, amount to be paid, and who paid for the service so it is clear to the county Business Office.*

*Sometimes the person who prepaid for a service is not clearly annotated on the receipt or documentation and there is a question as to who should be reimbursed (i.e. an 18+ youth or a third party). If this is the case, since funds are actually approved for services to the youth, it is not required, but strongly suggested that a letter signed by 18+ youth be on file when there is a discrepancy. This letter is not for youth under age 18.

This dated letter should include a statement with critical information for recordkeeping such as "I, YOUTH FULL NAME, acknowledge that THIRD PARTY FULL NAME provided my transportation to work from October 2, 2018 through November 28, 2018. I also give DSS permission to reimbursement him/her with John H. Chafee Foster Care Program for Successful Transition to Adulthood funds approved for this purpose" Or "I, YOUTH FULL NAME, acknowledge that THIRD PARTY FULL NAME purchased my graduation invitations for \$212.43 from Balfour on 12/07/18. Although the receipt from the school shows my name as the payer, I give DSS permission to reimbursement Mr./Ms. _____ with John H. Chafee Foster Care Program for Successful Transition to Adulthood funds approved for this purpose".

To assist the county Business Office in expediting payments, please ensure that all supporting documents (listed in #3 above) match the check voucher request so there are no discrepancies about who should be reimbursed.

I Have an Approval Letter- Now What?

Schedule an MS Outlook calendar reminder two weeks from approval email date to “submit a Check Voucher Request to Business Office”

Day of the MS Outlook Calendar REMINDER, submit a **Check Voucher Request** to the county Business Office. To expedite payment for services, please ensure that the **Approval Letter, Time Frame, Proof of Enrollment/Employment, Justification** and **Clear Supporting Documents** match so there are no discrepancies or delays in payment.

- A. Approval Letter and clear supporting documentation listed in the Appendix of this booklet.
- B. **DIRECT payments to vendor-** Provide invoices, estimates with taxes included, rental agreement, etc.
- C. **REIMBURSEMENT payments to youth or third parties-** Provide proof of payment. Receipts, letter or account printout from vendor showing proof of payment received from individual requesting reimbursement. Documentation must show the full cost of items as well as proof that the youth received services (i.e. driver’s license as proof the license fee was paid, GED certificate as proof of attendance and payment of testing fees, etc.). Highlight important information such as the youth’s name, amount paid, and who paid for the service so it is clear to the county Business Office.

Note: Chafee Program funds are approved for services to the youth. It is not required, but strongly suggested, that a letter signed by 18+ young adults be on file when a third party is reimbursed for payment for services delivered to young adults.

- D. **DIRECT payments to youth-** (Must show dates)
 - a. Transportation to college or work
 - b. Commuter Meals (post-secondary only)
 - c. Personal Items
 - d. Graduate Awards are typically mailed directly to the youth. If the case manager has the check delivered to a county office, the check should be held in the Business Office safe and hand-delivered to or mailed directly to the youth.
 - e. Academic Incentives- School semester grades printout that includes the student’s GPA on school letterhead or other official documentation such as student academic account printout.

Time frame- Include **specific dates** on the Check Voucher Request for **no more than 4 weeks** transportation/meals at once- **NOT** as a lump sum unless it is for a time period before the check voucher is issued.

Proof of enrollment/employment- Work/school schedule on company letterhead or other official documentation (student academic schedule/enrollment printout to show the class schedule or work schedule/pay stub). Email or written note from case manager stating that the youth is attending work/school and for meals, that cost of college attendance (including deposits, tuition, fees, books, room & board) are paid before request for commuter meal funds is made

Justification for transportation (distance/safety)- MapQuest from home to work/school to justify that walking is not safe or it’s not reasonable to walk)
