

Decisions for CPS Referrals Received between July 1, 2017 and June 30, 2018

SCDSS - Division of Accountability, Data, and Research (data from CAPSS on August 1, 2018)

Note: In January 2012 the SCDSS developed the use of Community-Based Prevention Services (CBPS) to work with families who had been reported, but where the risk to the safety and well-being of the children was determined to be low to moderate. Intake staff use an intake assessment tool which guides them through an evaluation of the safety and risk of all children in the home and helps them make referrals to services that best meet the needs of the children and family.

Reg	County Office	Total Intakes	# DSS Investigations	% Referred for Investigation	# Founded Investigations	% Founded Investigations	# Referred to Community-Based Prevention Services (CBPS)	# with No Action Required (children not at risk)
Region 1		17,030	11,790	69.2%	3,241	27.5%	2,196	3,044
