

## Domestic Violence

Reporting Classifications	FY 06-07	FY 07-08	Reporting Classifications (revised from prior categories in FY08-09)	FY 08-09	FY 09-10	FY 10-11
Emergency shelters funded	13	13	Emergency shelters*	18	18	18
Batterer intervention centers funded	13	13	Approved Batterer intervention Programs	37	39	38
Individuals receiving emergency shelter	7,507	3,045	Individuals receiving emergency shelter**	6,481	2,969	3,192
Women/children receiving counseling services	9,783	3,164	Women/men/children receiving counseling services***	9,702	17,438	19,850
Batterers receiving counseling services	4,469	8,888	Batterers receiving counseling services****	3,900	3,295	3,446

\* 13 Programs with a total of **18 Emergency Shelters**

\*\* Reflects the number of unduplicated clients served by providers. (Unduplicated=unique individuals)  
The FY08-09 data combined two different reporting forms because of a change in reporting requirements. FY08-09 data is larger because it represents duplicated numbers (i.e. if the same individual utilized emergency shelter as a result of two different violence events, that person is counted twice in the duplicated numbers; however, that person would be counted only once in the unduplicated numbers). Unduplicated numbers were previously not separated.

\*\*\* Residential and Non-Residential Counseling provided services, and combines individual and group counseling sessions. Additionally, this number includes men receiving counseling services. (Federal Requirements do not separate it out.) The numbers starting for FY 09-10 are considered a more accurate reflection of services provided as outlined by Federal Requirements.

\*\*\*\* The number was calculated from data submitted by providers per Federal Grant requirements.  
1) The new Federal guidelines ensure better accuracy in data collection and reporting from providers.  
2) This data reflects the number of unduplicated clients served by providers
