

Effective with the SFY 13-14 report, all blue columns now record the number of reports which resulted in an investigation by DSS, rather than ALL reports received. (Each year some reports are not investigated by South Carolina Department of Social Services due to a variety of reasons, including not meeting the legal requirements for an APS report, requiring only a referral to economic services, or containing insufficient information.) The number of “Total Clients” includes the clients in the new reports.
